THERE'S VALUE ALL AROUND IN THE NEWEST ADDITION TO OUR ZT FAMILY

BUILT STRONG WITH NO SACRIFICES.

Built on a strong 50x50mm all steel rail frame for its backbone. We add 9.5mm steel front forks — a Bad Boy construction hallmark — and a solid steel, all-welded deck. Formed from tough 7-gauge/4.5mm steel with reinforced edges, the unique baffling system maximises airflow for greater grass lift and a cleaner cut. And it all rides on a lower centre of gravity for better traction. Accessibility and being simple to clean and maintain comes standard. In fact, we simply make owning a Bad Boy as easy as driving one — without sacrificing a single ounce of performance or cut quality.
